Worst execution of core gameplay mechanics ever.

Absolutely unplayable in co-op.. this game sucks, period. don't waste 15 dollars, i wouldn't even spend 5. the coop mechanism is unpolished and junk. sierra is in the pits and this was an attempt to make a quick buck.. It is a very funny cooperative game, with good mechanics, witty puzzles and a nice presentation. Do play it with a friend.. I bought this game cause it look silly and fun. I was right. This game is awesomely fun, but still a challenging puzzle game. Really makes you think outside the box. Love the added challenge of getting the bonus cola bottles. Though a few are still elduing my little Shiftlings.

The only downside I see is that it doesn't support profiles or reseting progress. So once you have the bottle, you can't reset your profile and try it again. Which greatly reduces replayability value. Unless you wanna try top the time trial boards.

. Beautiful graphics, not so hard puzzles, and humorous narration.. The best puzzle-platformer I have ever played (and failed at)!. Really liked this game, would like a better reason why to collect the bottles other then getting the achievement, also the bonus speed run was amazing, wish this was a thing.. cute little game for me and the wife to play. definitely a good couch game co-op

. more like this please!

Looks can be deceiving.

Cute looking but annoyingly difficult. Not a game to play with kids with finnick controls and physics that quickly take away the fun.. I reccomend this game, especially if you got a buddy to play it with :D and its best when played locally. If you do play over the net, be sure to discord, or, skype, etc.

:D good original Co-op fun. a little time waster game and can have quite a lot of fun hindering your friend or general progress for laughs :) It's worth the money :). Fun Co-op Game.

The Cartoon Network style was a nice change of pace.. Perfect family game. Lots of fun, must cooperate to solve the puzzles.
